SUMMARY

MCA 2026 graduate and Full Stack Developer with hands-on experience in Python, SQL, REST APIs, ETL pipelines, CI/CD, and cloud deployment on AWS and Azure. Strong foundation in data structures, database design, and Linux/Unix environments, with practical exposure to relational database integration (MySQL/SQL), version control (Git), and debugging-driven development through automated test suites. Certified in AI in Cyber Security with expertise in ethical hacking and secure systems. Comfortable working close to the system level and picking up new languages and toolchains quickly.

EXPERIENCE

*GMU College, Davangere, **Full Stack Developer Intern***

Jun 2025 - Present

Reduced workflow turnaround time by 20% by identifying and resolving backend process inefficiencies, including optimizing stored procedures and SQL queries — direct experience with database-connected application logic.

Achieved 85%+ code coverage by designing and executing unit and integration test cases using Python and pytest, integrated into CI/CD pipelines via Jenkins — applying disciplined, debugging-first development practices.

Applied Generative AI techniques for automated test case generation, log analysis, and YAML/JSON configuration creation, improving team productivity by ~30% across Agile sprints.

*Procters.in (Live Production Project), **Developer & Founder***

2025 - Present

Independently built and deployed a live production web application using PHP, MySQL, and secure backend REST APIs, with a normalized relational database schema and 100% uptime on Azure cloud hosting.

Applied star-schema data modelling and structured database management supporting end-to-end reporting for real user traffic, from UI design through cloud deployment.

*GM University, **Full Stack Developer – Crop Coders (AI + IoT Platform)***

2024 - Present

Reduced manual reporting effort by 40% by building live dashboards integrating real-time IoT sensor data with a Python-based AI crop disease detection module.

Led a 4-member cross-functional team to deliver a bilingual platform 100% on schedule within 3 months, coordinating Agile sprint planning, peer reviews, and technical documentation.

EDUCATION

GM University, Davangere

MCA – Master of Computer Applications

CGPA: 7.81

Janani Global Innovative College, Huballi

BCA – Bachelor of Computer Applications

CGPA: 7.89

LICENSES & CERTIFICATIONS

AI in Cyber Security

Rooman Technologies •

AWS Certified Cloud Practitioner

Amazon Web Services •

Certified Ethical Hacker (CEH V12)

EC-Council •

Python Programming Certification

Microsoft •

SQL Certification

Internshala •

SKILLS

Python • PHP • SQL • HTML • MySQL • Relational Database Design & Integration • Star-Schema Data Modelling
• Linux/Unix • Git • GitHub
