Education

PhD in Mathematical Statistics, Columbia University (2022); MS in Applied Mathematics, MIT (2019)

Work Experience

4 years of Data Science experience.

- Senior Data Scientist at BioML Labs (2022 - Present): Developed predictive machine learning models using Python and PyTorch. Built data visualization dashboards. Scaled data pipelines on GCP.
- Research Assistant at Columbia University (2019 - 2022): Researched deep neural architectures and published in top conferences (NeurIPS/ICML).

Technical Skills

Python, Machine Learning, Deep Learning, PyTorch, SQL, Pandas, NumPy, GCP, Data Visualization, R
